GREENCREDIT SYSTEM

A **REWARD SYSTEM** DESIGNED TO DRIVE **SUSTAINABILITY INITIATIVES** IN ENVIRONMENTAL,
SOCIAL, AND ECONOMIC DEVELOPMENT AMONG **AIU STUDENTS**.

GREENCREDIT BACKGROUND

- ❑ The concept of the AIU GreenCredit system originated from a group of students enrolled in Social Business (I) during Semester 1 of the 2024/2025 academic year, led by Arezo Jafari, a BBA student.
- ❑ The concept is similar to a Social Innovation Grant project led by Mdm. Alia Diyana Zamri (SBSS) aimed to promote a zero-waste lifestyle culture among youth in Malaysia.
- ❑ In Semester 2 of the 2024/2025 academic year, Arezo Jafari and her group continued implementing their idea during the Social Business II course.

GREENCREDIT BACKGROUND

- ❑ Recognising the project's potential, ACE-SEDI brought in Chit Ko Ko, a computing student, to develop the GreenCredit system.
- ❑ As AIU progresses to join the UI GreenMetric World University Rankings, the team has integrated social and economic factors into their sustainability initiatives, previously the sole focus of GreenCredit's environmental efforts.
- ❑ Some UI GreenMetric World University Rankings (2025 revision) criteria, that the students can contribute, are incorporated into the AIU GreenCredit system.

GREENCREDIT OBJECTIVES

- ☐ To foster a culture of sustainability among youth, encouraging actions that contribute to creating a better world.
- ☐ To inspire and motivate 3ZERO Club members of AIU to actively participate in creating a world with three zeros: zero poverty, zero unemployment, and zero net carbon emissions.
- ☐ To contribute points in the UI GreenMetric World University Rankings for AIU.
- ☐ To help AIU management identify the most qualified students for the university's awards and prizes based on student points collected.
